

Faculty of International Business and Humanities (FIBH)

School Of International Business (SIB) Graduate Studies Programs

Accounting and Information Systems (AIS)

Preparatory Courses:

The objectives of the preparatory courses are:

- To cover the deficiencies of E-JUST PG applicants in the basic research skills, English languages, computer programming, statistics and liberal arts.
- To prepare E-JUST PG students to the required nature of PG study in E-JUST including Japanese culture, Japanese language, Arabic language for international students, Research and Publications ethic and method.
- To make the PG students familiar with E-JUST labs, center of excellences and professors before registering the point of research and before the formation of the supervision committee.

This will help the student in the proper selection of the research point and supervision committee.
